READY MEALS

CM Process Solutions heavy duty utensil wash sinks are manufactured from continuously welded 304 grade stainless steel with a sanitary glass bead blast finish. These utensil sinks are easy to clean and more robust than the standard industry knock together assembly units. Spacious in design for cleaning large utensils, trays and machine change parts. A stainless steel drainboard is mounted to the right side allowing for items to be stored when washing is complete. The sinks have a high splash and mount on heavy duty tubular legs with adjustable feet. The legs are inset allowing the utensil wash sink to placed tight up against the wall. The sink can be supplied with standard faucets or our water saving spray hoses.

FEATURES

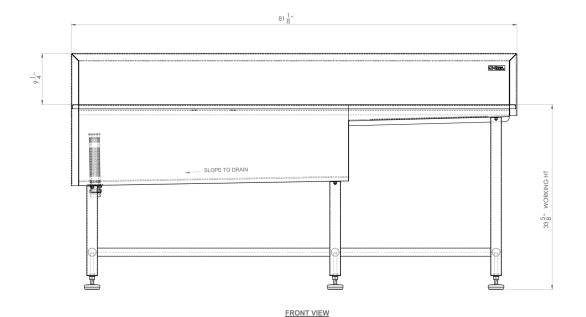

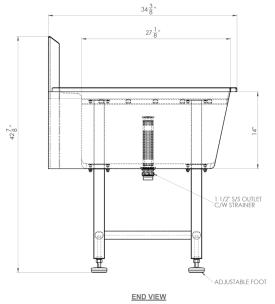

DIMENSIONS LARGE SINGLE BOWL SINK WITH DRAINBOARD 517-001072
